

LED Tube Light

Lighting technology you have to
see to believe

LED Tube : T5 - T8

Description

At the forefront of energy saving technology, our precision engineered LED tube lights have revolutionized the market.

The T5 - T8 range of LED tube lights are extraordinarily energy efficient, greatly lowering your power bill while giving you the lighting effect you desire.

Redefining energy saving technology.

Features

- Breakthrough energy efficiency
- High brightness with no flickering
- Superior quality : precision engineered
- Environmentally friendly
- Simple & easy installation

Benefits

- Massive cost savings
- Superior lighting effect
- Outlasts other LED bulbs
- Extended life span
- Easy & hassle free usage

Specifications

Property	Details
Tube type	T5, T6, T8
Lighting Power	4 - 34W
Luminous Efficacy	300 - 3,345 lm
Colour Temperature	3000-3200K / 4000-4500K / 6000-6500K
Material	Aluminium alloy + PC
LED Life Span	50,000 hours
Input Voltage	AC 165-265V 50/60Hz
