

i Stick : 16 - 64 GB

Restoring your faith in technology

iStick : 16 - 64GB

Description

The iStick is a storage device that offers the highest speed, most simple & secure file transfer between Apple & PC devices - without the need for iTunes.

This MFi-licensed device is offline as allows you to stream media/data when you have no internet access. More importantly, it stops you from having to make recurring payments for cloud services that are easily hacked into.

Creatively designed to make your life EASIER.

Features

- Dual interface : USB & Lightning connectors (MFi licensed)
- High storage capacity & transfer speed
- Simple, Convenient & High Security
- Offline device : No internet required

Benefits

- Data transfer made simple : iDevice to PC data transfer without using iTunes.
- Quick and simple file transfer & backup.
- No wireless networks or cloud required where hackers may gain access
- No downloading required : Stream videos & other content where internet is unavailable
